DAMERON L. JONES
PRIMARY EXAMINER
39/04

Continuation of 2. NOTE: Applicant's amendment is not persuasive and would require additional searching and consideration. First, Applicant needs to put all claims in ascending order with status identifiers. In other words, the after final amendment submitted on 1/7/04 does not comply with the revised format of amendments (please see the attached yellow sheet regarding how amendments should be submitted to the office). Secondly, Applicant's response is confusing because the Examiner has not withdrawn claims 1, 2, and 7-20. Did Applicant intend to cancel the claims? Thirdly, applicant's response to the 112 rejections is not persuasive. As set forth in the office action mailed 12/12/03, the specification is enabling for renal cell carcinoma, not all other diseases (i.e., all cancers). Hence, in order to overcome the rejections, it is suggested that (1) the claims be amended to encompassed the invention for which Applicant is enabled. The invention is not enabled for all types of cancer except renal cell carcinoma which is disclosed in the specification. OR (2) Applicant point to support in the specification (page and line number(s)) wherein other types are diseases (i.e., cancers) are disclosed.
